A Mother’s Love

Whose is the heart that burst with pride each time she sees your face.
Whose are the eyes that dart about, to check your world is safe.
Whose are the arms that wrap you up and hold you tight and close.
Whose is the love that’s always there whenever you need it most.

Whose is the smile that lights the room when you smiling too
Whose shoulder is the place to be, when only a cuddle will do.
Whose chest is warm and comforting when you’re a weary soul
Whose motivation only has your happiness as her goal.

Whose are the tears that cry for you as you grow old and free
Whose is the heart that aches so much, in the space where you should be.
Whose is the head that knows that you must find your path alone
Whose is the voice who welcomes you each time you go back home.

Who could have so many facets that make her oh so great
Who has you on her mind each day, and today we celebrate.
Whose hands hold and guide you, in a way unlike another. All these are part and parcel of the joys of being a mother.

As the summer approaches we have to be mindful of the heat. Please take all safety precautions in the up coming summer months. Keeping cool when temperatures reach record highs is not just about comfort. Dangerously high temperatures can result in heat-related illnesses ranging from heat cramps to heat exhaustion and heat stroke. The following tips can help you keep cool all summer long.

1. Wear loose-fitting clothing, preferably of a light color. Cotton clothing will keep you cooler than many synthetics.
2. Fill a spray bottle with water and keep it in the refrigerator for a quick refreshing spray to your face after being outdoors.
3. Fans can help circulate air and make you feel cooler even in an air-conditioned house.
4. Keep plastic bottles of water in the freezer; grab one when you're ready to go out side. As the ice melts, you'll have a supply of cold water with you.
5. Take frequent baths or showers with cool or tepid water.
6. Instead of hot foods, try lighter summer fare including frequent small meals or snacks containing cold fruit or low fat dairy products. As an added benefit, you won't have to cook next to a hot stove.
